Career objective

Junior Frontend Developer

Summary

I am the begining Frontend Developer. The desire to learn and self-education are my priorities. That is why I have completed several courses in order to know HTML5, CSS3, JavaScript, React, Git, preprocessors LESS, SASS, and SCSS. My next step will be farmilization with Node.js, Express.js, Nest.js, Koa.js and MongoBD. Cerruntly i am learning Redux. I use libraries React Bootstrap, Tailwind etc.

Skills Highlights
